

TRUST THE ORIGINAL WITH A HINGE THAT IS BUILT TO LAST

The EZ Secured® rodent bait station is designed to adapt to any environment and withstand whatever nature throws its way. Constructed with VM's patented process using lag screws and flexible fastening cones, the station and concrete block lock together for easy shipment.

EZ SECURED

RODENT BAIT STATION

- **Sturdy Low-Profile Design:** Durable and stable with reinforced hinges and spring-loaded locking mechanisms.
- **Effective Drainage and Flood Prevention:** Drain holes throughout the lid and base keep the bait dry. The external concrete block keeps the station in place and elevated to prevent flooding.
- **Quick Servicing:** Comes standard with a removable EZ Service Tray. Bait can be placed in the tray or on included metal rods, holding up to 4 block baits or 8 soft baits.
- **Efficient Monitoring:** Barcode on the lid allows for easy scanning, mapping, and logging field solutions.
- **Tamper Resistant:** Ships with the VM Universal Key.™
