1

VAPOR-TEC PSE 100 Air Treatment

These rugged, all-in-one systems are used to deliver Bektra's Odor-Key VP waterless vapor solutions to treat the air where odors are a problem. They support battery & USB power requirements with Bluetooth or in-system programming.

Odor-Key VP solutions are a waterless, multi-component, blend of natural odor neutralizing compounds available in a selection of fresh key notes.

COMMON AREAS OF USE:

- Garbage rooms & chutes
- Wastewater
- Compactors & recycling bins
- Material recovery processing
- Food waste handling & disposal
- Change rooms

2

BIO-KEY Topical Foam

Bio-Key is a penetrating foam odor neutralizing concentrate that cleans and prevents offensive odors in one easy step

It contains powerful detergents, to break up heavy soils and grease, natural bio-stimulants to deactivate odor producing mechanisms.

COMMON AREA OF USE:

- Trash room floors, bins & chutes
- Trash tipping floors and landfill
- Dog runs, kennels and vets
- Material Recovery Facilities
- Agri-food Processing
- Composting

3

BIN BALLS Granular

Bin Balls are lightweight, granular odor control spheres with triple-action performance

1. Proven odor neutralizing technology for instant results.
2. A secondary burst of scent on contact with liquid.
3. Effective absorption without dissolving, clumping or becoming mush.

COMMON AREA OF USE:

- Trash containers
- Garbage dumpsters
- Organic recycling bins
- Compactors
- Transfer stations
- Trash room floors
