

BIOMIN[®]

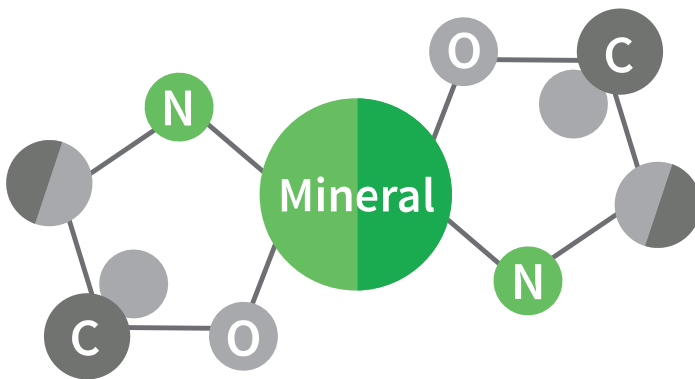

Complexed Minerals

Biomini[®] are plant nutrients created through a unique complexing process that binds essential mineral nutrients with amino acids.

Our exclusive **Biomini[®]** series is designed to increase nutrient absorption, reduce nutrient loss through leaching, and prevent precipitation, all of which can lead to better crop yield. This process makes nutrients and minerals more available for plants to absorb, ensuring they can receive optimal nourishment.

The **Biomini[®]** series can deliver the most stable nutrients free from harsh chemicals, correcting mineral deficiencies faster than conventional inorganic options. Mostly approved for organic production, the **Biomini[®]** series can provide superior nutrient uptake without compromising the environment or safety.

Product Profile

Form: Soluble liquid and powder

Function: Complexed minerals for increased nutrition

Compatibility: Compatible with all **Biomini[®]** series products*

Storage: Dry, cool, and shaded area

* Recommended to perform a field trial before application.

Advantages:

- Safe for most plants
 - non-phytotoxic, ensuring crop health.
- Certified for organic farming.
- Helps promote uniformity and a more consistent harvest.
- Delivers bioavailable micronutrients for improved crop yield and quality.
- Boosts nutrient absorption and supports efficient nutrient translocation within the plant.
- Optimizes plant nutrition to enhance resistance to environmental stressors.

Key Features

- Accelerates correction of mineral deficiencies.
- Supports early plant maturity.
- Formulated to improve overall yield potential by maximizing nutrient availability.
- Helps strengthen plants, minimizing crop losses during adverse conditions.

Recommended Use

Biomin® is fully bio-available and non-phytotoxic to plants when applied in accordance with directions.

Biomin® may be applied to all crops, such as field crops, fruit trees, vegetables, potatoes, grapes, citrus, bananas, dates, ornamental, nursery plants, and turf.

BIOMIN® Series

Macronutrient Product	N	K ₂ O								
BIOMIN® N	5.0									
BIOMIN® Potassium	2.0	25								

Secondary Nutrient Product			Ca	Mg						
BIOMIN® Calcium			5.0							
BIOMIN® Magnesium				3.0						

Micronutrient Product					B	Cu	Fe	Mn	Zn	Mo
BIOMIN® Boron					3.0					
BIOMIN® Copper						4.0				
BIOMIN® Iron							5.0			
BIOMIN® Manganese								5.0		
BIOMIN® Zinc									7.0	
BIOMIN® Molybdenum										3.0

Combination Nutrients	N	K ₂ O	Ca	Mg	B	Cu	Fe	Mn	Zn	Mo
BIOMIN® Cal-Boro			5.0		1.0					
BIOMIN® Cal-Boro Light			5.0		0.5					
BIOMIN® Mn & Zn	2.0							5.0	6.0	
BIOMIN® Mn & Zn Plus	1.0							5.0	6.0	
BIOMIN® Booster 11			1.0	1.0		0.5	0.5	0.5	0.5	
BIOMIN® Booster 126				0.8	0.025	0.1	0.5	1.0	3.0	
BIOMIN® Booster 153				0.8	0.025	0.1	0.5	2.5	1.5	
BIOMIN® Booster 221				0.5	0.025	0.5	2.0	2.0	1.0	
BIOMIN® Booster 235				0.5	0.025	0.5	1.0	1.5	2.5	

*Biomin boosters may also be custom manufactured.

Approved for organic use

Only CDFA organic
