

POLTI CIMEX **ERADICATOR**

THE ALL NATURAL, ULTIMATE BEDBUG SOLUTION

Kills Bed Bugs Instantly

356°F Superheated Steam

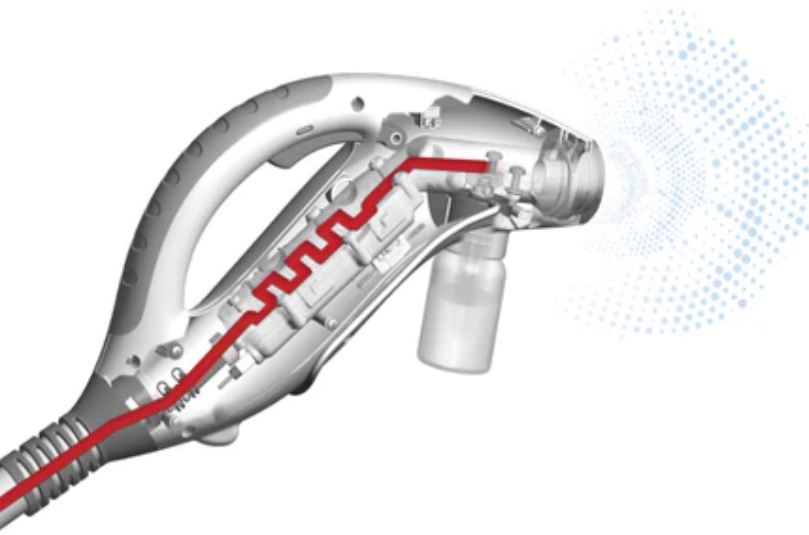

Chemical Free

Low Moisture

Non Toxic

Sanitize & Disinfect

How it works

The steam generated by the Polti Cimex Eradicator is different from the typical steam released from other steamers because it is compressed and re-heated before it leaves the tip of the nozzle.

Thanks to its patented technology, the Polti Cimex Eradicator boasts a high tip-temperature of up to 356°F.

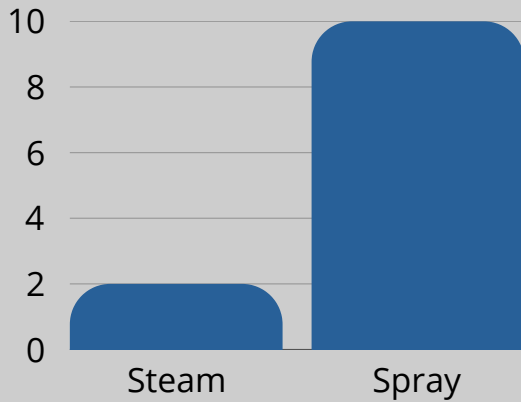

The steam produced is superheated dry steam! Standard steamers release over two times the amount of water per minute compared to the Polti Cimex Eradicator.

Advantages

- ✓ **Patented technology. Delivers 356°F Superheated dry steam.**
- ✓ **Instantly kills eggs and adult bed bugs.**
- ✓ **Dry steam. Near zero moisture content released.**
- ✓ **Chemical-free. Safe to use around people and pets.**
- ✓ **No wait time. Rooms can be used immediately after treatment.**
- ✓ **No damage. Safe to use on hard & soft surfaces.**
- ✓ **Long term investment.**
- ✓ **Does not contribute to insecticide resistance.**

Backed by science, proven in the field

Mean live bed bug count

13 days after treatment

"Steam treatment resulted in faster bed bug reductions than spray treatment".*

Features

Technical Specifications

- Stainless steel 18/10 boiler.
- Continuous steam regulation from 0 to 3.9 oz/min
- Steam pressure: up to 58 psig
- Dimensions (wheels included): Ø 12.6 x 13.4 in
- Use capacity: 67 fl/oz
- Power: 1500W
- Weight: 12.12 lbs
