

WALL ANCHORS

- Flip Toggle
- Self-Drilling Drywall Anchor
- Triple Grip Anchor

These provide secure mounting options depending on the wall construction.

METAL SELF-TAPPING SCREW (3/4")

For direct installation onto metal surfaces.

WOOD SCREW (1/2")

For mounting to wood posts, beams, or other wooden structures.

CONCRETE SCREW (1-1/4")

Recommended for concrete, masonry, or block walls.

2" ROUND BASE MAGNET (25 LB. PULL STRENGTH)

An optional magnetic mounting solution for steel surfaces using a 1/2" nut and bolt.

24" ZIP TIE

Ideal for mounting to poles, pipes, fencing, or other round structures.
